

WORKPLACE ORGANIZATION AND STANDARDIZATION

The adoption of the 5S principles of sort, set in order, shine, standardize and sustain principles can yield tremendous results — preventing accidents, reducing downtime, enhancing operational control of processes, and creating a healthier company climate.

ATN training and services allows participants to:

- Learn to implement specific, easy to access visual systems to enhance communications and productivity
- Learn what visual order is
- Learn what the organized workplace looks like
- Learn how concepts function on the production shop floor
- Develop checklists
- Use a process map to drive the process

Implementing 5S helps you:

- Improve process
- Increase productivity
- Reduce / eliminate waste
- Simplify work processes
- Improve product quality
- Improve Safety
- Save time and money
